## Historical Background

---

The Nevada Test Site Oral History Project (NTSOHP) research was conducted from September 2003 through July 2007 in the University of Nevada, Las Vegas (UNLV) College of Liberal Arts Department of History with funding from United States Departments of Energy (award number DEFG52-03NV99203) and Education (award number P116Z040093). The Project collected

interviews from over 150 persons affiliated with and affected by the Nevada Test Site (NTS), located in southeastern Nye County, Nevada, during the era of Cold War nuclear testing. Those interviewed include national laboratory scientists and engineers, labor trades and support personnel, cabinet-level officials, military personnel and corporate executives, Native American tribal and spiritual leaders, and peace activists and protesters. Ranchers, families, and communities downwind of the test site were also interviewed. The central goal of the project was to gather insights around questions and themes related to U.S. Cold War nuclear weapons programs through interviews with a wide range of people associated with the NTS. For the academic year 2007-2008, the University Libraries and the Department of History partnered in support of work on final interviews and the creation of the digital collection by University Libraries staff. The project was a recipient of the 2008 Oral History Association Elizabeth B. Mason Project Award Honorable Mention and 2010 National Council on Public History Outstanding Public History Project Award.
